

Local Author Publishes Inspirational Book on How to Grow Resilience and Happier Living

Facing Mental Health Struggles Amidst the Pandemic

“

Life is like an Etch a Sketch. You are in control of the creation, so if you are not happy with it, shake it up and try again.

Jill

Dundee, OR— Book Released June 18, 2022 — With the Pandemic becoming a mental health crisis for many, this newly released book details Jill’s personal story from breakdown to breakthrough after being hospitalized and diagnosed with a mental health condition. She offers readers tips and tools to help them through their own struggles and shares vulnerable personal stories with the hopes of normalizing talking about mental health.

“

Self-care and mental health care are two strong pillars in what allows our lives to work well. Our brains are an important part of our body and deserve no less care than other parts.

Many hit a wall during the Pandemic, and even now in the aftermath, there are feelings of being stuck or frustrated with life. Juggling everything in life and facing hardships takes a toll on our mental health. This book advocates that we normalize talking about, seeking help, and finding resources for our mental health just as much as our physical health.

If you have come to a point of breakdown, a grey area, a loop in life, or simply a point where you feel you want something better for yourself—you are not alone. This is not the end of your story; it is just a chapter, a page, or a short sentence in it. You determine where your story leads.

Having experienced the devastation of suicide with close members of her family and seeing others struggle with common mental health issues, Jill understands how important mental wellness is. She knows how often people don't talk about it for fear of judgment or feelings of shame and shares her story to let others know they are not alone and that seeking resources or help is okay.

In a bad situation, you have three choices: you can let it define you, destroy you, or you can let it strengthen you.

Diagnosis or not, this is a valuable read for anyone who wants to identify what is holding them back in life. There are common areas of life that many struggle with - too often in silence. This book outlines how to focus on decluttering life of the habits, people, things, unhelpful thoughts, experiences, past hurt, and priorities that get in the way of wellness and joy-filled living.

Consider if you see your days as a time of growth and opportunity, or do you focus on the limitations, obstacles, and things you can't control.

Along with her personal story, Jill offers “growth tools” to help readers stand up to the “bullies in their brain” in order to overcome life’s roadblocks and detours. The resources included in this book help readers discover a path to a more joy-filled and successful life focused on wellness. The book’s main areas of focus include:

- Personal Development
- Relationships
- Conflict Resolution
- Authentic Living
- Positive Thinking
- Self-Care
- Emotional Management
- Growth Mindset
- Toxic Relationships
- Compassionate Communication
- Community Building
- Self-Improvement
- Raising Future Adults
- Mental Health Tips & Tools
- Successful Choices
